

HOUSE OF KEE

We're back in business!

As called for in Phase 2 of the state's "Safe Start" plan to reopen the economy, we'll be welcoming customers starting June 24th, 2020. We've appreciated your support during the stay-home period — and now we're thrilled we get to see you and serve you again in person.

We take safety seriously

"Back in business" doesn't mean "back to normal" for us. Coronavirus isn't over. As our community and economy move into recovery mode, it's still up to everyone to help prevent the disease's spread. You'll see careful safety measures in place — as outlined by state regulations and recommended by health experts — when you visit us.

The point is to help keep everyone as safe as possible — and to help make sure our community, along with our business and economy, can emerge from the pandemic healthy and strong.

What we're doing to protect our community

We remain dedicated to doing our part to protecting the community that supports us — to protecting you, our employees and families, and everyone in our community. Here's how we're doing that now:

- We're practicing **social distancing** inside our business and asking our customers to do the same. We've put up signs and placed stickers on our floor as visual reminders to give 6 feet of space to anyone you don't live with.
- Our employees will be wearing **face masks** or **cloth face coverings**, and we ask customers to do the same when visiting us. Face masks work well to help prevent the spread of coronavirus through the air when we speak, cough or sneeze.
- We'll be working hard to **frequently disinfect** high-touch surfaces and shared spaces. When you come in, please use our provided hand sanitizer.
- For now, we're **limiting the number of people allowed inside** at one time. Based on state regulations, you may be asked to wait outside of our building until it's safe to enter. Thank you for your understanding and patience.
- Our employees will be **staying home** when they're sick or showing any possible signs of illness. We ask that you do the same. We're always happy to take phone orders — and we'll be glad to see you when you're feeling better!

FOR DINING ROOM

We're limiting tables to **five guests or fewer**. This is a requirement for businesses like ours to reopen during Phase 2 of the Safe Start Washington plan.

HOUSE OF KEE

- For now, **bar seating is not available** — another measure to help preserve social distancing.
- We're taking extra precautions behind the scenes to ensure the health and safety of our guests and employees. Our **service may take longer** than normal — we appreciate your patience and support.

FOR TO-GO ORDERS (PLEASE CALL-IN AHEAD)

- We've limited our services to provide more **space between workstations** — another measure to help preserve social distancing. We're working to schedule for all our customers — we've missed you, too! — and we appreciate your patience and support.
- When you arrive for your order, please **stay in your vehicle** and **call us at**
- **253-848-4899** to let us know you're here. We'll tell you how to enter the building and remind you to put on your face mask.

How you can help

For us, it's all about consideration — taking small but important steps to protect one another. We will do our part for as long as it takes. In the meantime, we also ask our customers to:

- Keep doing **physical distancing**, staying at least 6 feet from anyone who doesn't live with you whenever possible.
- Wear a cloth or manufactured **face mask** when you visit us. Face coverings, which help prevent the invisible spread of this airborne disease, are required.
- Please **stay home if you're sick** or suspect you might be sick. We really want to see you — when you're healthy.
- **Wash your hands** with soap and water (or use hand sanitizer) before and after you visit us.

HOUSE OF KEE AND ALL THE STAFFS

Thank you!

These past few months have challenged our business in ways we never predicted. We've been grateful to our customers and our community for your support and encouragement during the Stay Home order. We're also grateful we get to back to work — and to serving you.

Let's work together toward a recovery that's healthy and safe for everyone. We'll see you soon!
